Your Autumn/Winter Home Security Checklist

Keybury Fire and Security are a family run Keighley based business, and local security specialists. They put together a winter security checklist to bring us all a little peace of mind.

Outside

- Is your security lighting on a timer/ sensor? ○ Does it still work?
- Trim back shrubs, add lighting to dark corners of garden; don't provide cover for an intruder.
- Does your alarm look old? A new box can look like a completely new system.
- Is your shed/garage/garden bar locked?
- Is it linked to your home alarm system? (It could be programmed to be alarmed when the rest of the house isn't.)
- Does your garden fence need repairing/ replacing? ○ Could you plant 'anti theft' (prickly!) bushes? A gravel drive or pathway is crunchy and noisy when anyone approaches your car or home.
- Do you have home CCTV? ○ Check it's working. ○ Book a technician to carry out a service of the system to make sure it's working as it should. ○ If you haven't yet installed CCTV, consider it. Security cameras are one of the best burglar deterrents available. If there is an incident, your cameras could capture valuable evidence.

Inside

- Close your curtains to avoid people seeing in. ○ Leave a light on to make your home look occupied when you're out.
- Tidy up tech and valuables away - don't leave them out in plain sight.
- Bring in the Christmas Shopping from your car and store out of sight of thieves

as well as the kids! ○ Dispose of packaging discretely. A Playstation box left out on top of the bin is an advert to a thief.

○ Take care answering the door. ○ Invest in a peephole, door chain or doorbell camera to allow you to screen who is calling before you answer the door. Wired doorbell cameras are a reliable option as they don't require recharging.

Routine

- When you're leaving the house lock doors and windows.
- Don't leave spare keys hidden
- Always set your house alarm when you're going out – even if you won't be out long. If someone tried to break in, it would scare them off and alert the neighbours. A smart alarm can ping your phone and let your set it via an app too.
- When you're at home, lock your door to reduce the chance of sneak in burglaries.

At bedtime –

- Check all the doors and windows are locked and set your house alarm.

As the summer 7-day per week running period drew to a close at the start of September, you would be forgiven for thinking we would take the opportunity to relax and recharge the batteries. Whilst the locomotives and carriage fleet get a bit of a breather now that we use them only on weekends, our volunteers are still hard at work. We turn the Railway over to our "Civils" team, who look after the track and infrastructure that helps us keep the 150+ year old Railway operating. This year our volunteers are focused on installing a new drainage channel between Oakworth and Damems and renewing ballast and sleepers in the area. The other activity in this year's "Civils Week" is continued preparations for our most challenging and complex civil engineering project that we have ever undertaken, which is the replacement of the bridge that spans the river on the mainline just outside Haworth Yard.

As well as the big engineering projects, we continue to maintain other areas of the Railway, so you will see work on the station buildings and gardens to keep them in their beautifully restored state. In fact, keeping the gardens looking so wonderful is no mean feat, and so we are looking for further volunteer support to help, particularly at Ingrow Station so do please get in touch if you could offer your time.

Whilst all this work is ongoing, we are still working hard to prepare for the ever-popular Beer & Music Festival 12-15th October,

~ **Matt Stroh** Keighley & Worth Valley Railway Chairman

when we will be hosting a 5-mile long event with 170 different beers available from the various venues along the line and from the on-train bars, as well as speciality gins and ciders, accompanied by a range of music on the Friday, Saturday and Sunday during the Festival. After the Beer & Music event, we focus on readying the line for Santa's arrival because our Elf Explorer Christmas special runs 25/26th November through weekends in December up to Christmas. It's always such a magical time of year, and makes all the months of preparation worth it for all our 700+ volunteers and small team of staff. Tickets are selling fast, so please do visit the website and book sooner rather than later to avoid disappointment.

Whilst the big events are always a draw, we continue to run heritage trains every weekend, and during the October half terms (Tuesday 24th, Wednesday 25th October and Thursday 26th October; Tuesday 31st October, Wednesday 1st November and Thursday 2nd November) and Wednesdays during September and October –please check the website for details, including how to apply for your Local Residents' Railcard, available if you live in BD20/21/22.

As you can imagine, keeping the wheels turning requires so much effort that we are always keen to welcome new members to our volunteering team. If you could offer your time to help, please apply via the website.

Denture Problems Look no further...

Who are we?

**Our Keighley
Denture Expert is
Matthew Varley
(Dip CDT RCS)**

Matthew Varley is the partner and Managing Director of My Denture

Clinics, here he works as a Clinical Dental Technician (Dip CDT RCS).

Matt was born and raised in Pudsey, where he met his wife Angela Varley at school. They have 2 sons; Ray and Austin, he hopes one day they will follow him into the dental profession and share in his passion for dentistry.

Within his 23 years of experience, Matt has changed the lives and smiles of many, some of which are during one day implant immediate loading cases, and same day smiles, which he specialises in. The regular accolades received from clients and patients alike are testament to his passion for his work. Matt has a keen eye for detail and endeavours to provide the best care possible. Matthew completed his dental technology qualification at Leeds Dental Institute, he finished first in his class achieving distinctions throughout and was awarded overall best student and the acclaimed technical achievement award.

Matthew Varley started his journey as a Registered Dental Technician (RDT), however after 23 years experience working as a RDT in highly acclaimed laboratories, Matt made the decision in 2018 to set up his own business alongside fellow business partner Joseph O'Reilly.

Matt also returned to university to further his dental knowledge and become a Clinical Dental Technician, receiving the prestigious royal college of surgeons (Dip CDT RCS).

How can we help you?

Technology has moved on massively over the last few years as far as dentures are concerned. The fact is, **you don't have to suffer badly designed or ill fitting dentures anymore.**

However, replacing your teeth is more than trusting someone with your smile. Your appearance and the way people perceive you is also at stake.

Matt creates dentures which can offer the dual effect of restoring your smile and correcting the proportions of your face.

He can add volume to your lower face and upper lip region to achieve a more natural, youthful look. Everyone is different, so your dentures are influenced by your age, personality and gender to ensure they look perfectly natural. Matt will discuss your individual needs and the best choices available before providing you with the information you require to determine what is right for you.

The smallest alteration can make the biggest change and Matt is committed to providing the highest level of care, quality materials and the latest digital technology to achieve the best results for you.

Matt's ambition is also his craft, creating lifelike smiles through dentures and implant supported prosthesis.

**Everybody has
the right to smile!**

**Would you like to be more confident?
Do you suffer from denture discomfort?
Loose or ill-fitting dentures?
Afraid to smile?**

With our clinical denture expert Matthew Varley, who has restored thousands of smiles - you're sure to feel more confident and be you again.

From Frustration to Clarity

One of our lovely transformation cases. Patient LS struggled for years. Aesthetics were compromised along with facial support looking very strained. With our Diamond range of dentures, aesthetics were restored with full facial support in the correct position.

DISCOVER YOUR SMILE

Conchiglie with Purple Broccoli

by Martin Lingard

Purple sprouting broccoli is in season right now so it's cheap and plentiful, I use it here to make a pasta sauce similar to a pesto. It's best served with the "conchiglie" shell style pasta. If you don't like anchovies or are vegetarian, try substituting miso paste instead.

Ingredients

- 750g of purple sprouting broccoli
- Olive oil
- 2 garlic cloves (nice fat ones)
- ½ teaspoon of dried chilli flakes
- 1 small tin of anchovies (or 2 teaspoons of miso paste)
- 50g butter (unsalted)
- 150 ml double cream
- Sea salt
- Freshly ground black pepper
- 225g conchiglie pasta
- 120g parmesan, grated

Method

Bring a large pan of well salted water to the boil. Whilst waiting, pull the broccoli flowers, heads and stalks apart, chopping roughly into small pieces, discarding any tough stalks. Add to your boiling water, simmer for two minutes, drain and reserve. Put a large heavy sauté pan on a

low heat and pour in a good glug of olive oil.

Whilst heating, peel and finely slice your garlic. Add the garlic and gently fry till a pale gold. Drain and roughly chop the anchovy fillets if using and chuck into the garlic and oil, along with the chilli flakes and the butter. Continue to fry gently, mashing and squishing the garlic and anchovies into the oil and butter to break them down.

Now add the broccoli and cream, add the miso paste at this stage if using instead of the anchovies (don't use both!) increase the heat and simmer gently for 6-10 minutes. You may need to add a splash or two of hot water.

Bring a large pot of well salted water to the boil, and tip in your pasta, boil for 10 minutes.

Whilst the pasta is boiling, get an electric hand blender (or a potato masher) and roughly blend or mash to a course sauce. Drain your pasta and add to your sauce, along with half of your grated parmesan. Season with black pepper and salt to taste and mix well. Serve in warm bowls with the remaining parmesan.

BEHIND THE SCENES AT THE MUSEUM

As the nights draw in and a chill snaps at the door, our minds turn to the darker aspects of the Brontë story. This month we highlight an item from the collection that will make the spine tingle, and extend an invitation to a chilling **Thursday Talk**, as we explore the sinister and macabre in the Brontës' novels.

From the collection

Pictured here is a wonderful drawing by Branwell Brontë, the fourth of the six Brontë children and the only boy of the family. It was likely produced around 3 months before his untimely death, in 1848. The drawing depicts death in the figure of a skeleton, summoning Branwell from sleep. A replica of the bed depicted in the drawing can be found in Mr. Brontë's bedroom in the Museum. Branwell often used his artistic skills to

illustrate his letters with gruesome sketches, but what led to this melancholic darkness? Branwell was a bright child with a precocious intellect. Like his sisters, he was creative. He played the organ in his father's church, and aspired to being a professional portrait painter. He was impulsive and quick-witted, and loved showing off in company. In 1838, Branwell followed his dream and set himself up as a professional portrait painter in a rented studio in Bradford. He made many friends among the artistic community of the

Bradford pubs, but failed to make a living. He needed to raise an income. In 1840, Branwell took a position as tutor at Broughton-In-Furness but was sacked within a year. From 1841 to 1842 he worked on the Leeds-Manchester railway but again, was let go. A railway company audit of the ledgers revealed a discrepancy in the accounts, and although Branwell was not suspected of theft, he was held responsible for having abandoned his post and left the station in the care of his assistant.

At the beginning of 1843 his sister Anne secured him a position as tutor to the Robinson family at Thorp Green near York, but in July 1845 was let go for supposedly having an affair with his employer's wife. Aged 27 Branwell found himself back home and in disgrace.

As Branwell sank into self-pity and became dependent on alcohol and opium, his sisters had their first novels published. During the last year of his life his father took him into his own bed to watch over him and alleviate his increasingly unbearable nightmares. He became gravely ill, probably from tuberculosis, and died on September 24 1848.

October Thursday Talk

The sinister, the uncanny, and the macabre In this month's Thursday Talk we'll explore the gothic in the Brontë novels, perfectly timed for October! Looking at some of the Brontës' more gruesome imagery – a long dead corpse exhumed by a grief-crazed lover; a mysterious visitor mutilated as though by a vampire - we ask whether we can call the Brontës gothic novelists?

LOFT LADDERS

Yorkshire Loft Ladders, Quality You Can Trust

These days most homeowners suffer from a lack of storage space. So many precious items that need to be kept - but where to store it all? That's where Yorkshire Loft Ladders come in.

The company, based locally, offers homeowners the opportunity to maximise their storage space with a loft ladder, 50 sq ft of boarding and a light all fully fitted in less than a day from just £277 + VAT. But it's not just the affordability of the package the company offers that makes Yorkshire Loft Ladders stand out as manager Mark Hodson explains: 'Our watchwords are Quality,

Integrity and Value. Quality in the materials that we use for all our installations and the fact that all our loft packages are fitted by time served tradesman so our customers are assured of the best job. Integrity in that we will turn up at the time we say and make sure the house is spotless when we leave, and Value in that we offer our services at a price people can afford. Our business relies on referrals and we get a huge

amount of our calls from people who have been referred to us by our existing customers - that simply wouldn't happen if we didn't adhere to our overriding principles.

At the end of the day the old adage that happy customers lead to more happy customers is true and we work hard to make that happen for every installation we carry out!

So, if you want to make use of your loft space, however big or small, call Warren on 0800 612 8359

and he'll be happy to pop round and give you a no obligation quote so you too can make use of your loft.
